This paper has a larger Daily, Tri-Weekly and Weekly circulation than any other in Minnesota, and therefore presents inducements to advertisers which they will not find elsewhere.

SCHOFIELD AGAIN.

We hope that the positive statement that Gen. Schofield has been assigned to the command of East Tennessee, grows out of the report that Gen. Grant recommended either Gen. Schofield or Gen. McPherson, to succeed General Foster, whose ill-health makes it necessary that he should be relieved. The people of East Tennessee have suffered enough during the progress of the rebellion, without having Schofield hang like a mill-stone about their necks.

We published a few days since a chapter of Schofield incidents, which occurred in Missouri, and in view of them and a thousand others that might be given, we protest against such an indication being imposed upon that suffering Union loving people. We are sufficiently afflicted with "Old Brains," and to add this slave-driving, conservative, semi-loyal General, would be a drop too much. With his removal from the Department of the Missouri, we had hoped he would be allowed to retire to private life. He might answer as Vice President on the McClellan ticket, put in nomination by the "National Conservatives," but as a General in the Union army is a failure.

East Tennessee loves freedom as ardently as it loves the Union, and a more withering curse could not be placed upon it than the assignment of Gen. Schofield to that command. Forty of our brave boys are languishing in Missouri prisons, because, under the assumed rule of this villainous General, it is a crime to love freedom. Their imprisonment is a stand-complimentary upon the infamous, conservative General who has succeeded in leaving a stamp upon Missouri that a century cannot efface. His energy has only been evinced in oppressing loyal anti-slavery men and if the statement proves true, we shall look for disaster to befall our arms in East Tennessee when the spring campaign opens.

TOWNSHIP QUOTAS.

We publish this morning a very important General Order from the Adjutant General's Office, which gives the township quotas in the First District. By this order each town can ascertain how many men it has been credited with, and the number yet necessary for it to raise to escape the draft.

The whole number of men which the State has furnished since the war is twelve thousand five hundred and seventy-four, and exclusive of the veterans who have re-enlisted we still lack two thousand seven hundred and seventy-six. When the re-enlisted men are credited, our quota will probably be reduced to about eighteen hundred.

The township quotas for the Second District we shall publish to-morrow. We understand that St. Paul has just about filled her quota according to this township calculation.

This Chamber of Commerce held a meeting last night at the Library room, to confer with Capt. Fisk as to the best means of opening a route from St. Paul to Idaho via Big Stone Lake. It was resolved, after a thorough canvass of the question, to memorialize Congress on the subject, and a committee consisting of Messrs. Robertson, Cathart, Dailey and McClure were appointed to prepare the memorial. Capt. Fisk was also requested to lecture through the East on the advantages of the overland route, which he agreed to do, on his way to Washington.

The following promotions have been made in the 4th regiment:

First Lieut. S. T. Isaac, to be Captain.

First Lieut. D. L. Wellman, to be Captain.

First Lieut. C. H. Heltman, to be Captain.

Second Lieut. W. Russell, to be First Lieutenant.

Second Lieut. Orlando Graham, to be First Lieutenant.

Orderly Sgt. O. W. Douglass, to be First Lieutenant.

The case of Col. Robert G. Shaw, who fell so nobly while leading his colored soldiers in the attack upon Charleston, has excited a good deal of interest in England. He and his family had many personal friends abroad; and Mrs. Gaskell, the novelist, has written a long and interesting account of them and him for McMillan's Magazine; and a correspondent of the London Daily News proposes an English memorial to him. "Such a memorial would be a graceful tribute of sympathy at the present day, and in the days to come a record that there were at least some Englishmen whose hearts beat for freedom in that great struggle; and no nobler epitaph were needed than the reply of his enemies to the request for his body: 'We have buried him with his negroes.'"

Prof. James Watson, who recently discovered the new comet, writes to the Detroit Advertiser that the comet is now rapidly approaching the earth, and receding from the sun. Its distance from the earth, January 12th, was 4,000,000 miles. It will continue to approach the earth until February 1st, when its distance will be only 1,500,000 miles, and its brightness five times greater than at the present time. It is probable that it will then be visible to the naked eye. After February 1st, it will recede from both the earth and sun. Should the comet become visible to the naked eye, it may first be seen on the evening of January 20th—before the moon rises—in the northwest, about 10 degrees south and a little east of the bright star Alpha Capricorni.

The Baltimore Sun of Thursday says: "Yesterday morning there arrived in this city, from Point Lookout, fifty-one of the Confederate prisoners who have been imprisoned here for some time past. They reported themselves at Colonel Fish's office as having taken the oath of allegiance, according to the President's proclamation, and that they were on their way home. They were all members of Kentucky regiments, except four or five from Western Virginia."

General Headquarters, State of Minnesota.

ADJUTANT GENERAL'S OFFICE.

ST. PAUL, MINN., JAN. 23, 1864.

The quotas of the several towns in the First Congressional district of the State under all calls of the General Government up to this date are hereby assigned and awarded as follows, with the credits of all volunteers that have enlisted in pursuance of such calls.

The first column of figures exhibits the number of volunteers with which each town has been credited; the second, the number necessary to be furnished in order to fill its quota under all calls of the Government up to this date.

The whole number of volunteers thus far credited to the State is 12,574. Number yet to be raised 2,776.

This is exclusive of all members of the old regiments who have re-enlisted except forty-three names, that being all that have been yet officially reported.

Other credits are yet expected for volunteers who have enlisted in Wisconsin regiments, for which negotiations are in progress; and full credits, it is hoped, will be received in a short time for all who have so enlisted, except within a very short time.

Three hundred and sixteen names at present exist, not claimed by any town, which will be distributed pro rata upon final adjustment, unless they shall have been sooner claimed by towns.

The quotas due under the several calls for volunteers, during the years 1861 and 1862, have been apportioned, in most cases, on the basis of the enrollment made in the summer of 1862. The quotas for the last two calls are proportioned to the number of persons enrolled in the first class. In the counties of Brown, Carlton, Kanabec, Lake, Kandiyohi, McLeod, Meeker, and St. Louis, the quotas are entirely based on the enrollment of 1863.

In the town of Warren in Winona county, the number given for the first class is so large as to make it probable that a mistake has been made. The quota for that town is made from the old enrollment, but it will be corrected to correspond with the others when the correct number can be obtained from the Provost Marshal's office of the District.

The following is a list of the charges and credits with each town in the First Congressional District, under the foregoing explanations:

Lake Superior Railroad.

NUMBER IV.

But the point of principal interest to the people of the State at large is, the resources which a railroad, if properly located, would help to develop in the State.

There can be little doubt but that the north shore of the Lake is rich in minerals; the surveys employed by Government have had to use the solar compass altogether in their surveys, the magnetic needle proving entirely unreliable, pointing very clearly to the fact that mineral exists in large quantities through the country. Already two copper mining companies have commenced operations—one about 12 miles, and the other 18 miles down the Lake, and although they have only been at work but a few months, they have met with the most flattering indications of success. These are the first attempts that have been made, and if the results of these or other attempts prove successful, a change will take place as if by magic. The field is so large that numerous other companies will be required to be fed, &c., and shall Minnesota send them provisions direct by railroad, or through another State, to be shipped back again to our own, to the end that certain towns in Wisconsin may increase in value?

Again, immediately on the line of railroad on the St. Louis river, are immense slate beds, which would become of invaluable value upon the construction of the road. These slates are pronounced by competent judges to be equal to any in America, and are of various degrees of hardness, so as to be useful either for roofing purposes, or school slates. The value of this deposit will be at once apparent when we take into consideration that at present the West has to import all the slates she uses from the East; but these quarries once opened and worked, the Mississippi and its tributaries can be supplied on the one hand, and the lakes on the other. Shall corner-lot speculators be allowed to cheat the people of the State out of the revenues to be derived from this source?

A Minnesota railroad would pass through a large section of Pine county, which, with a road, would at once be bought up, and thus be brought under taxation, but without a road would remain of no advantage either to the State or to individuals.

The St. Louis river is for several miles divided successively into rapids and falls, and is capable of being made at some time to become a large manufacturing centre—how soon it will become busy with the hum and whirl of machinery, will depend in great measure upon the success or failure of the schemes of certain lot owners, and whether Minnesota will be true to her own interests.

NORTH SHORE.

The Galena Democrat tells of a man, who, in a buggy, was slowly passing a farm house in the neighborhood of Warren, one of the cold days last winter. The woman of the house thinking that he must be very cold, called him to come in and warm himself. He did so, and came in, but in the right or left, kept slowly on his way. The lady, fearing that the man would freeze to death, was no longer in the direction he was going—requested her husband to follow him and induce him to stop and warm himself. He did so, and coming up, found him frozen stiff, dead, with whip in one hand and lines in the other.

We have already announced the fact that Mr. Gwin, employed in the bank note printing office of the Treasury Department, had been arrested, and charged to the New York Herald reports his offense to have been the diversion of seventy thousand dollars of public money from the payment of presses in which he and another were principally employed, directly to a counterfeiting establishment in New Jersey. There were produced the loaf of fraudulent press currency that exercised the Department last summer.

On the 18th ult., Van Horn was hanged at Central City, Colorado, for the murder of a man by the name of Squires, the husband of a woman with whom he had dropped from Johnson county, Kansas. This is the first legal execution that has taken place in that State since the death of John Brown. The people of Colorado that the impression had been created that the law could not be vindicated in a legal manner, is thus done away, and that the code of Judge Lynch, which heretofore held dominion, is thus virtually ignored in Colorado.

THE SECOND REGIMENT.

They will Arrive To-Day--

Their Reception at the International Hotel.

The Second Regiment, to the number of 150, will arrive to-day about one o'clock, and immediately be escorted by the committee to the International Hotel. They will be welcomed by Col. Robertson on behalf of the citizens. Dinner will be served to them at 2 o'clock. After this they will be furnished, and allowed to separate to their homes.

Had the Second Regiment arrived on a week day, as at first arranged, the entire programme, the reception, the military salutes, the procession, &c., would have been gone through with. Our guests will, however, receive the plain and quiet hospitalities tendered to them to-day as fully indicative of our feelings of respect and gratitude, as though the reception as originally designed, had been tendered them.

It is suggested that those citizens who have sleighs, go down on the few miles to meet and escort the Regiment in.

MAJOR JOHN M. THOMPSON, late a Captain in the Fourth Regiment, and now Second Major in the Second Minnesota Cavalry, arrived in town yesterday. The Major came to have recovered sufficiently from the wound he received at Champion Hill to take unto himself a wife, for which evidence of health as well as his success in securing a wife, was tendered him our congratulations. By reference to the marriage notice which we publish elsewhere it will be seen that he became a Major and Benedict the same day. Lucky chap!

POLICE COMMISSIONER LARSEN—The only case before Esp. Gibbs yesterday was that of a young woman named Margaret Galvin, who was charged by her father, Richard Galvin, her father, with larceny of some bed clothes and other household articles. Galvin had turned her away and forlorn her home, and in leaving Margaret took with her the articles in question, which she says her mother, now deceased, had given her. The felonious intent was not proven, and the young woman was discharged.

PERSONAL.—John P. Worstell, Agent of the La Crosse road in New York, is in our city. Geo. Nutter, (champion of the lightweights) Agent of the La Crosse road in Boston, is also in the city. Robert Bruce, (descendant of Spider Bruce, the Scottish chieftain) Agent of the Detroit and Milwaukee railroad, is in town.

CAPT. FISK'S LECTURE ON IDAHO.—Do not forget Capt. Fisk's lecture on Idaho to-morrow evening at Ingersoll's Hall. It will be very interesting, because the Captain weaves in so many amusing incidents of life on the overland trip, in the mines, &c. The ladies at Anoka and Minneapolis turned out in force when the Captain lectured at those places, and we presume they will to-morrow evening.

LARSEN.—The Boot and Shoe Store of W. F. Dier, (Lambert Block), was broken into on Friday night by some burglars, who obtained entrance through the front window, and about \$20 worth of goods stolen. It is singular that with our *rigid* police always on hand, and in the season of full moon, such a bold larceny should be committed.

YET-THIR RECON.—During the past three days there has been quite a warm spell, and it seems as if we are to have a regular January thaw. Yesterday morning an unprecedented phenomenon for the season—rain—occurred, lasting for a few minutes, after which it cleared off. The sleighing has been badly injured by the damp weather, and unless we soon get snow, will be used up.

THE PRIZE SHOOTING.—The match rifle shooting for the bear, took place yesterday on the flat above Cobb's saw-mill. A number of sharp shooters tried their skill, each having three shots—distance 40 yards. E. A. Dunham, of St. Paul, won the bear.

This paper has a larger Daily, Tri-Weekly and Weekly circulation than any other in Minnesota, and therefore presents inducements to advertisers which they will not find elsewhere.

EAST TENNESSEE.

A dispatch this morning puts a different phase upon affairs in East Tennessee from that given yesterday. Then the rebels taking advantage of our having furloughed so many veterans, had heavily reinforced Longstreet, and he was advancing on Knoxville, driving Gen. Granger before him.

A little display of reasoning would have relieved any anxiety in that quarter without the denial which we have to-day. Gen. Grant is too much of a military man to allow his army to be seriously depleted by furloughs. It probably occurred to him before it appeared in the papers that the rebels might attempt to take advantage of the situation, if a large portion of our Army was furloughed, and no others sent to take their place.

It is very proper that we should not be informed as to the movement of troops, as long as we can have confidence in the Generals who have the disposition of our forces, and it is not at all probable that so many regiments have been furloughed without ample provision being made for every emergency. We received a private letter from a gentleman in Kentucky, a day or two since, by which we know such precautions have been taken. The figures and movements given, if made public, would put at rest all doubts of the safety of East Tennessee. It is a prize the rebels covet, but if they advance with the expectation of finding our forces weakened, they will learn their mistake by bitter experience.

PLANS FOR THE NEXT INDIAN CAMPAIGN.

Major General Pope has issued instructions to Generals Sibley and Sully, fixing a general programme for the operations of the United States forces in the two military districts, under their command, for the coming spring and summer. The objects to be accomplished are the complete protection of the border against attempted raids on the part of the hostile Indians, the chastisement of those who remain refractory, and the establishment of posts to answer the double purpose of guarding the approaches to the settlements, and of adding to the security of overland expeditions to Idaho.

The plan embraces a chain of military stations along the route to the gold regions, more or less distant from each other as facilities may offer for their location. When the details of these important measures are fully matured we shall announce such of them as can be properly made known.

The following Minnesota soldiers have been appointed to positions in colored regiments. We are not informed as to the rank of all of them:

Sergeant Charles D. Bowers, company H, 7th Regiment, to be 2nd Lieutenant.
Corporal Thomas Montgomery, Co. K, 7th Regiment, to be 1st Lieutenant.
Corporal Emerson J. Woodward, Co. E, 5th Minnesota.
Sergeant Wm. C. Durkee, Co. E, 9th Minnesota.
Sergeant Andrew J. Hubbard, Co. G, 9th Minnesota.
Sergeant Thomas Semmler, Co. H, 7th Minnesota, to be 1st Lieutenant.
Corporal Wm. N. Durrell, Co. I, 7th Minnesota.
Corporal Fred. E. Miller, Co. F, 1st Minnesota.
Private Lemuel Ward, Co. B, 2d Minnesota.
Private Frank A. Shaw, Co. A, 2d Minnesota.
Private S. E. Mattoon, Co. H, 2d Minnesota.
Sergeant James F. Bradley, Co. E, 8th Minnesota.
Private Merritt B. Case, Co. G, 1st Minnesota.

The Adjutant General has received the roll of re-enlisted men belonging to Company D, Third Regiment. It numbers thirty-seven names, which comprises almost every member of the company.

We learn that quite a number of new recruits are being obtained for this regiment. Some are coming in daily, twenty having been received in three days last week. The town of Vasa, Goodhue county, a Sweden town, held a meeting last week Monday and raised a fund from which they offer one hundred dollars bounty to each recruit. Eight were obtained the same day for the Scandinavian company in the Third.

Our conservative neighbor down town, was a little out of the regular order in announcing yesterday morning, the election of James Guthrie to the United States Senate, from Kentucky. When the balloting closed yesterday he only needed *seventeen* votes to secure his election.

Our conservative friend had better confine himself to his peculiar role of publishing the report of the "Hero of Ball's Bluff" and "National Conservative Candidate for the Presidency." When he oversteps those bounds and gets mixed up with news matter the reaction is so great that he renders everything unintelligible.

The resignation of Gov. Stephen Miller as Brigadier General was accepted, to take effect from January 18, 1864.

Privates Xavier Darias, Co. H, 10th Minn., and J. D. Hoffman, Co. I, 7th Minn., have been honorably discharged.

IMPORTANT INDIAN NEWS.

Hostilities Among the Upper Sioux.

The Indians at Fort Garry Return their Powder and Ball, and Continue to Resemble Among their Friends.

Interesting dispatches have been received by General Sibley from our northern border. Father Andre, who has visited several distant camps of the Upper Sioux, found them in a wretched condition, subsisting wholly upon fish, and destitute of ammunition. The Sissetons are almost unanimous in their desire for peace, and are only deterred from surrendering themselves by the fear of offending the EYanktonais, on whose lands they are now living. The latter bands, as well as the Sissetons, are scattered over a large extent of country in small parties, subsisting themselves and families as best they can.

The refugee murderers of the Lower Sioux are still at Fort Garry. They were offered food and ammunition if they would leave the settlement, but returned the articles and refused to go unless compelled by force to do so. They are destitute of everything, and live by begging from the settlers, who dare not refuse them.

Her Majesty's subjects are paying a heavy price for the refusal of the British Government to permit our forces to cross the line, and it is quite probable that the precedent which has been set in the case of these savages, will be followed up by other hungry bands, to the continued annoyance and loss of the residents, whose patience is already severely tried by the constant demands of upwards of five hundred men, women and children for food. Major Hatch keeps a close watch upon the movements of these people, and will give a good account of themselves if they venture into our territory.

This extracts from the diplomatic correspondence which we give this morning, throw light on several important points, and will amply pay perusal. The policy of our Government in relation to the French movements is fully explained.

Mr. Seward is entitled to the credit of having stopped the building of Laird's rebel rams, and if we mistake not, the potent remedy was the following language of the Secretary of State addressed to Mr. Adams:

"At the same time you will excuse me for stating the difficulties of enforcing without resort to extreme measures of resistance the new invasion which is threatened from the ports of Great Britain.
Can the British Government suppose for a moment that such an assault as is thus meditated can be made upon us with British built, armed, and manned vessels, without at once arousing the whole nation and making a retaliatory war inevitable? Whatever view may be taken of the fortunes of the insurrection in Europe, it is deemed clear in this country that the factions which give it birth is rapidly declining, and the sentiment of nationality is developing itself more with an energy never known before. The Nation, after two years of war, has overcome the sense of fear, while its temper is highly excited. It believes that, though found unprepared, there are no limits to its ultimate ability of self-defense. It has a press, and a Congress as free and as bold as the press, and the Parliament of Great Britain. You have only to listen to the political debates in any part of the country to learn that the United States would accept an unprovoked foreign war now with more unanimity and cheerfulness than at any former period.

The next dispatch from Minister Adams contains these words:
I have to add that instructions have been issued for preventing the departure of the iron clads in question from Liverpool until satisfactory evidence can be given as to their destination, or, at all events, until the inquiries which are now being prosecuted with a view to obtain such evidence shall have been brought to a conclusion.

HOUSE.—[Monday's Proceedings Continued.]—Bills were introduced establishing a navy yard on Western waters; to amend the Pacific Railroad Act; to create a school fund out of confiscated property, and authorizing Utah to form a Constitutional State Government, all of which were appropriately referred.

A resolution was adopted instructing the Judiciary Committee to inquire into the expediency of organizing a Department of Industry as a branch in the Agricultural Bureau; a Colonization and Emigration Bureau of mines and minerals; a Bureau of Freedmen's Affairs.

A resolution directing a survey of the writ of habeas corpus act, and to prevent illegal arrests and imprisonment, was introduced by Mr. McDOWELL, and laid over as Mr. Wadsworth expressed a desire to debate it.

A series of resolutions were offered by Mr. EDGERTON, re-affirming the Crittenden resolutions; condemning Executive assumption; desiring peace and the restoration of the Union without a further waste of blood, and deprecating all revolutionary measures as tending to divide the Union men of the country.

Debate springing up they were laid over.

The bill reported by Mr. SOLENN from the Military Committee, to amend the Enrollment Bill with amendments was referred to a Committee of three and postponed till Wednesday as stated in the afternoon report.

In opposing the deficiency bill in Committee of the Whole, Mr. BROOKS said the bill proposed, appropriating \$45,000,000, and he opposed its passage, viewing it as the effect of assumption of power by the Executive, in creating new offices.

Mr. STEVENS explained that more Clerks were needed now, in order to facilitate the payment of soldiers, and other like business.

In some subsequent remarks, BROOKS said it was a delusion to say that the President's emancipation proclamation would end the war to which Mr. SMITH responded as a Southern man identified with Slavery: "There remained behind the Rebellion that which gave it strength and power, and which must be destroyed by overthrowing the army moves in front. The very life-blood of Rebellion is drawn from African Slavery, and when we look at this as the foundation of Rebellion, our efforts will be effective." [Applause.]

Some further debate ensued between Mallory and Wadsworth of Kentucky, both charging Smith with unfaithfulness to his party, to which Smith responded, stating that he (Smith) was nominated by a convention which the Louisville Journal denounced as an abolition affair. He was elected by 5,000 majority, and men who had owned more slaves than all of them together had endorsed his voting for Speaker Colfax.

Mr. CLAY asked if he was included in the charge of violating pledges.

Mr. MALLORY replied he had not in the remotest manner alluded to his colleague, Mr. Clay.

The committee arose and the House adjourned.

WASHINGTON, Jan. 26.

Mr. HOWARD moved to strike out the words "he expelled" and insert he censured. Mr. Howard addressed the Senate at length on his motion.

HOUSE.—[Yesterday's proceedings.]—Consideration of the joint resolution annullatory of a joint resolution explanatory of the confiscation act was resumed.

The House passed Senate's resolution of thanks to Gen. Hooker, Meade, Banks and Burnside, and the officers and men under the respective commands. Also to Commodore Vanderbilt for the gift of the steamer Vanderbilt.

The bill, after debate, was laid aside to be reported to the House. The Committee then took up the Naval appropriation bill.

More Advances of the Hopelessness of Rebellion.

New York, Jan. 25.

The Post says a gentleman who has spent several years in Mexico, Georgia, recently reached Newark. He declares the Rebellion an utter failure. Even the leaders see that success is out of question, while the common people would hail with delight the restoration of Federal authority.

One of the principal bankers of Marion told him: "Our only hope now is, if the Federal army will deliver us from our troubles, for without that intervention, we must perish."

The utmost destitution prevails everywhere. The conscription is being enforced with pitiless energy, including the grey-haired men. Slavery, he says is dead, and this is admitted by nine-tenths of the Southern people.

Three years ago the same man wrote letters in strong terms, saying that the South could not be subdued.

A Big Score—Obstructions Gen.—Rebel Iron Clads.

New York, Jan. 25.

A Morris Island letter of the 21st says there was a big score in the fleet lately, caused by some rebels.

Obstructions in the channel between Sumter and Moultrie, are entirely gone and the opinion of naval officers is that there are no impediments to our fleets' progress except from James Island to the middle ground. No less than three rebel iron clads are seen daily.

New York, Jan. 25.

A correspondent of the Commercial writes from Folly Island, that rumors were still prevailing among the troops, of a projected expedition towards Savannah, but nothing reliable concerning it was known outside of headquarters.

There was a general review on the 20th inst., of all troops on the island. 7,000 men were in line, besides 12 full batteries. Gen. Terry is now in command at Folly Island, and occupies Gillmore's former headquarters. All hopes of reaching Charleston this winter, have died away among the troops.

EAST TENNESSEE.

A dispatch this morning puts a different phase upon affairs in East Tennessee from that given yesterday. Then the rebels taking advantage of our having furnished so many veterans, had heavily reinforced Longstreet, and he was advancing on Knoxville, driving Gen. Granger before him.

A little display of reasoning would have relieved any anxiety in that quarter with regard to the denial which we have to-day, Gen. Grant is too much of a military man to allow his army to be seriously depleted by furloughs. It probably occurred to him before it appeared in the papers that the rebels might attempt to take advantage of the situation, if a large portion of our army was furloughed, and no others sent to take their place.

It is very proper that we should not be informed as to the movement of troops, as long as we can have confidence in the Generals who have the disposition of our forces, and it is not at all probable that so many regiments have been furloughed without ample provision being made for every emergency. We received a private letter from a gentleman in Kentucky, a day or two since, by which we know such precautions have been taken. The figures and movements given, if made public, would put at rest all doubts of the safety of East Tennessee. It is a prize the rebels covet, but if they advance with the expectation of finding our forces weakened, they will learn their mistake by bitter experience.

PLANS FOR THE NEXT INDIAN CAMPAIGN.

Major General Pope has issued instructions to Generals Sibley and Sully, fixing a general programme for the operations of the United States forces in the two military districts, under their command, for the coming spring and summer. The objects to be accomplished are the complete protection of the border against attempted raids on the part of the hostile Indians, the chastisement of those who remain refractory, and the establishment of posts to answer the double purpose of guarding the approaches to the settlements, and of adding to the security of overland expeditions to Idaho. The plan embraces a chain of military posts, more or less distant from each other as facilities may offer for their location. When the details of these important measures are fully matured we shall announce such of them as can be properly made known.

The following Minnesota soldiers have been appointed to positions in Colored regiments. We are not informed as to the rank of all of them: Sergeant Charles Bowers, company II, 7th Regiment to be 2nd Lieutenant. Corporal Thomas Montgomery, Co. K, 7th Regiment, to be 1st Lieutenant. Corporal Emerson J. Woodward, Co. E, 8th Minnesota. Sergeant Wm. C. Durkee, Co. B, 5th Minnesota. Sergeant Andrew J. Hubbard, Co. G, 9th Minnesota. Sergeant Thomas Scantlebury, Co. II, 7th Minnesota, to be 1st Lieutenant. Corporal Wm. N. Darrell, Co. I, 7th Minnesota. Corporal Fred. E. Miller, Co. F, 1st Minnesota. Private Lemuel Shand, Co. B, 2d Minnesota. Private Frank A. West, Co. A, 2nd Minnesota. Private S. E. Mattoon, Co. II, 2d Minnesota. Sergeant James F. Bradley, Co. E, 8th Minnesota. Private Merritt B. Case, Co. G, 1st Minnesota.

The Adjutant General has received the roll of re-enlisted men belonging to Company D, Third Regiment. It numbers thirty-seven names, which comprises almost every member of the company. We learn that quite a number of new recruits are being obtained for this regiment. Some are coming in daily, twenty having been received in three days last week. The town of Vasa, Goodhue county, a Swede town, held a meeting last week Monday and raised a fund from which they offer one hundred dollars bounty to each recruit. Eight were obtained the same day for the Scandinavian company in the Third.

Our conservative neighbor down town, was a little out of the regular order in announcing yesterday morning, the election of James Guthrie to the United States Senate, from Kentucky. When the balloting closed yesterday he only needed *seven* votes to secure his election.

Our conservative friend had better confine himself to his peculiar role of publishing the report of the "Hero of Ball's Bluff" and "National Conservative Candidate for the Presidency." When he oversteps those bounds and gets mixed up with news matter the reaction is so great that it renders everything unintelligible.

The resignation of Gov. Stephen Miller as Brigadier General was accepted, to take effect on January 18, 1864.

Privates Xavier Danias, Co. II, 10th Minn., and J. D. Hoffman, Co. I, 7th Minn., have been honorably discharged.

IMPORTANT INDIAN NEWS.

Destitution Among the Upper Sioux.

The Indians at Fort Garry Return their Powder and Ball, and Continue to Reside Among their Friends.

Interesting dispatches have been received by General Sibley from our northern border. Father Andre, who has visited several distant camps of the Upper Sioux, found them in a wretched condition, subsisting wholly upon fish, and destitute of ammunition. The Sioux are almost unanimous in their desire for peace, and are only deterred from surrendering themselves by the fear of offending the EYanktonais, on whose lands they are now living. The latter bands, as well as the Sissetons, are scattered over a large extent of country in small parties, subsisting themselves and families as best they can.

The refugee murderers of the Lower Sioux are still at Fort Garry. They were offered food and ammunition if they would leave the settlement, but returned the articles and refused to go unless compelled by force to do so. They are destitute of everything, and live by begging from the settlers, who dare not refuse them.

Her Majesty's subjects are paying a heavy price for the refusal of the British Government to permit our forces to cross the line, and it is quite probable that the precedent which has been set in the case of these savages, will be followed up by other hungry bands, to the continued annoyance and loss of the residents, whose patience is already severely tried by the constant demands of upwards of five hundred men, women and children for food. Major Hatch keeps a close watch upon the movements of these people, and will give a good account of themselves if they venture into our territory.

The extracts from the diplomatic correspondence which we give this morning, throw light on several important points, and will amply pay perusal. The policy of our Government in relation to the French movements is fully explained. Mr. Seward is entitled to the credit of having stopped the building of Laird's rebel rams, and if we mistake not, the potent remedy was the following language of the Secretary of State addressed to Mr. Adams:

"At the same time you will excuse me for stating the difficulties of enduring without resort to extreme measures of resistance the new invasion which is threatened from the ports of Great Britain."

Can the British Government suppose for a moment that such an insult as is thus made can be made upon us with British built, armed, and manned vessels, without at once arousing the whole nation and making a retaliatory war inevitable? Whatever view may be taken of the fortunes of the insurrection in Europe, it is undeniable that in this country the factions spirit which gave birth to it is rapidly declining, and the sentiment of nationality is developing itself anew with an energy never known before. The Nation, after two years of war has overcome the sense of fear, while its temper is highly excited. It believes that, though found unprepared, there are no limits to its ultimate ability of self-defense. It has a press, and a Congress as free and as bold as the press, and the Parliament of Great Britain. You have only to listen to the political debates in any part of the country to learn that the United States would not shrink unprepared from war now with more unanimity and cheerfulness than at any former period.

The next dispatch from Minister Adams contains these words: "I have to state that instructions have been issued for preventing the departure of the iron clads in question from Liverpool until satisfactory evidence can be given as to their destination, or, at all events, until the inquiries which are now being prosecuted with a view to obtain such evidence shall have been brought to a conclusion."

The following Presidential appointments have been confirmed by the Senate: John G. Butler, of Penn., as Chief Counsel of the Philadelphia Mint, vice Broadbent, resigned. Benjamin L. Martin, Assayer in the San Francisco Mint, vice Wiegand, resigned. Thomas H. C. Clay of Kentucky, as Minister Resident in the Republic of Honduras vice James Partridge of Maryland, transferred to San Salvador.

James R. Partridge of Maryland, Minister Resident in the Republic of San Salvador, resigned. Andrew B. Dickinson of New York, Minister Extraordinary to the Republic of Nicaragua, vice Thomas H. Clay transferred to Honduras.

Robert B. Swain, Superintendent of the Branch Mint at San Francisco, vice Stevens, removed. Rufus King, Minister Resident at Rome, vice Blanchard, resigned.

Mr. Briggs of Massachusetts, Secretary of Legation at Brazil, vice Biddle, resigned. Lewis C. Gunn of California, to be Collector of Customs for the District of Painesville, Me. Wm. E. Woodhouse, Surveyor of Customs for the port of Havre de Grace, Md.

J. M. Miller, Appraiser of Merchandise for the Port of San Francisco. Charles G. Parsons of Maine, Consul for the Island of Trinidad. Israel Washburne, Jr., Collector of Customs for the District of Portland and Falmouth, Me.

Henry M. Hamesby and James W. Dennis, 3d Lieutenant in the Revenue Cutter service.

We find the following deservedly complimentary notice of Capt. Daley, in the *Mankato Record* of the 23d: Capt. M. A. Daley, Commissary of Subsistence at this place, has been ordered to turn over his supplies to Captain McKeasick, Quartermaster, and report to Gen. Pope at Milwaukee. The Captain will finish up his business, and be ready to leave us early in the ensuing week. We speak the unanimous opinion of our citizens when we say we regret the necessity which compels his departure from our town, where so many pleasant associations have been formed. He will carry with him the best wishes of his numerous friends in this State.

Gov. MILLER has received an order from the War Department stating that A. M. Burnham, Assistant Surgeon of the Tenth Minnesota Regiment, has been "dishonorably dismissed from the service for conduct prejudicial to good order and military discipline, and unbecoming an officer and gentleman, in embezzling public property under his charge."

FIRST LIEUT. THOMAS McDONOUGH, of the Second Regiment, who was wounded at the battle of Mill Spring, has been appointed to a position in the Invalid Corps.

COLONEL WM. COLVILLE has been relieved of the command of the First Minnesota Regiment, to take effect from January 11, 1864.

PROVOST MARSHAL'S OFFICE.

SECOND DISTRICT MINNESOTA.

ST. PAUL, JAN. 25, 1864.

Editors of the St. Paul Press:

For the benefit of those who may wish to enlist in any of the old organizations, I would state that arrangements have been made with Messrs. Burbank & Co. to furnish transportation to these Headquarters for all who are presented to any of their agents, by the authorized recruiting agents.

The Recruiting Agents in the various companies are requested to take notice of the above arrangement, and forward those who may desire to enlist as fast as possible. They will furnish to Messrs. Burbank & Co., a list of the names and residence of each recruit, and forward a duplicate of the same to this office.

GEO. H. KENT.

Captain and Provost Marshal 2d Dist. Minn.

THE MASONS' BALL TO-NIGHT.—The Ball in aid of the Charity Fair of St. Paul Lodge to-night will undoubtedly eclipse everything of the kind that has ever preceded it in the city. The arrangements have been in the hands of experienced gentlemen, and are of the most liberal character. A full band will furnish the music, while the supper to be of the best quality, in fact to look at the prospect of a grand success. The ball will be held at the Grand Hall, which will seat 150 at once, it would seem that there was enough for a thousand people. Mozart Hall will be open for dancers, while Masada Hall will be open as a saloon, for those who do not wish to dance.

Lake Superior Railroad.

NUMBER V.

There is one reason why it is important to the State that the eastern terminus of the proposed road should be within our own borders, which I have not mentioned, yet it is the reason which would suggest itself to the minds of most persons as being the most important, viz.: The benefit which the State would derive from herself having the commercial town which a railroad must create at its terminus at the head of the Lake.

That the grain trade of Chicago and Milwaukee has helped very materially to make those cities what they are to-day will not be disputed; that as large an amount of Western produce will in a few years after the building of a railroad, be shipped through a port at the head of Lake Superior, must be evident to every man who has given any thought to the subject; now without claiming that a railroad will create here a city to rival either of these, yet it is not too much to say that it must bring into existence a place of enough importance to make it an object to the State that it shall be within her own borders.

Can a sufficient inducement be held out by parties interested in Superior to make any company building the road terminate it there? or in other words, is there enough of capital invested there, and enough of influence in the non-resident owners of its numberless town lots, to control the terminus? This is the point upon which the whole subject hinges—there is no reality about the place which would command an influence for a moment. Whatever of commerce she possesses is derived from lumber manufacturing, furs caught, or beef fattened in Minnesota. Her agent, employed last winter, in St. Paul to carry through the scheme to have her attached to Minnesota (a scheme, by the by, which of itself, speaks volumes on this subject) predicted, that if it failed, the place would "go to seed."

No, it is simply speculators that we have to fear; and while I do not suppose that railroad companies are any more "soulless" than other corporations that are organized for the purpose of making money, they will do whatever they think is for their own interests, it will be for the Legislature and State authorities to be as mindful of the interests of the State, and to this end let them be careful not only to refrain from removing any of the guards now thrown around the grant of land made to the company by the State so as to insure the construction of the road within its own boundaries, but also, in view of the many and important State interests involved, to hedge up these provisions still more closely, so that the State shall reap the rewards of her own liberality.

THE MASONS' FESTIVAL, LAST NIGHT.
—Mason Hall was crowded last night with the beauty, the bon ton, the civility, so to speak, of St. Paul society, as it never was before. It was fully equal to the famous hall before the Masons last winter in the numbers, present, the excellence of the arrangements, and the liberality of the appointments throughout. The hall was decorated in a tasteful manner with flags, evergreens, a tasteful manner with flags, evergreens, and pictures and Masonic emblems, and presented a handsome appearance—more than the fine music of the Great Western String Band floating through it, and the hundreds of elegantly dressed ladies and gentlemen gliding over the floor in the "magnificent" made a scene rarely witnessed elsewhere. The stage in front was an immense mirror—"Faith, Hope and Charity,"—and at the reverse end of the room was the words "Liberty, Equality and Fraternity."

Masonic Hall was thrown open for the accommodation of those who did not wish to dance, and numerous whist parties were in progress at various stages of the evening. The supper was served in Mason Hall, which was roomy enough to seat nearly half of the city to attend them. Their large membership, drawn from those circles of society, enables them to do this—hence the superior style of their hall. Command us to them, and you will find that night was as pleasant as any. The festive spirit was in full tide at a late hour of the night, and the unanimous opinion was that it was a success. Financially, we are confident it will prove so, and not the charity fund of St. Paul Lodge a handsome sum.

THE STEREOTYPE.—Mr. Eggleston proposes to exhibit, in addition to the favorite pieces that were so enthusiastically received on Tuesday evening, upwards of 20 entirely new pieces. No finer ever seen, and ever appeared in St. Paul than this. Eggleston's hall ought to be filled to its utmost capacity to-night. If you want to see exquisite statuary, beautiful landscapes in almost every part of the globe; picturesque architecture; giant old ruins, and so on, see the Stereotypes. If you want to see Italy, the Rhine, Paris, London, Scotland, Switzerland, Egypt and the Holy Land for 25 cents, go and see the Stereotypes. Then there are the Chinese fire-works that were so much applauded on Friday evening, and some laughable pieces, and do not forget the beautiful Minnesota views and on purpose for Mr. Eggleston's instrument, by Mr. Union of St. Anthony.

Mr. Eggleston has gone to considerable expense to get these views made on glass, a kind of picture rarely made, except in Paris. He has also made a number of views of St. Anthony Falls, Mahtowa Rock, Vermilion Falls and others of our own landscape thrown upon canvases splendidly illuminated fifteen feet in diameter. Exhibition commences at half past seven o'clock. Doors open at seven. Tickets 25 cents; children 15 cents.

FIRE DEPARTMENT ASSOCIATION.—As many of our citizens do not understand the purposes for which the Fire Department Association of this city was organized, and in view of the fact that the Association proposes to give an elegant ball at the International Hotel, on the 24th of February, which the citizens generally are expected to patronize, it may be well to explain in a few words the noble charity which the Association has for its object.

The Fire Department Association of Saint Paul is composed of all the active firemen of the city, in good standing in their respective companies, and its object is, the accumulation of a fund for the purpose of extending aid to indigent and disabled firemen and their families. Its officers are men of character and responsibility, and the Association, though yet in its infancy, has in its treasury a fund, which though not large, is not insignificant, invested in interest bearing Government securities, beside having voluntarily contributed liberally all the while of a deceased fireman, the only case which, since its organization, has come within the scope of its charities. The net proceeds of the entertainment which the Association proposes to give on Tuesday night, next, are to be applied to increase of the Association being known, may not the firemen of our city reasonably look for encouraging liberality on the part of the citizens, in the purchase of tickets to their ball?

A CONCERT.—Prof. Frank Wood the celebrated Pianist, and other well known celebrated musicians, will give a Vocal and Instrumental Concert on Thursday night of next week. Prof. Wood has been a resident of our city for three years, and has generously donated his services to every charity and Church Concert which has been given in our city during that time. His friends have offered him a benefit on next Thursday night, as a testimonial for these services, and we hope the music loving, and appreciative classes of our city will attend, thereby saving the pleasure of listening to a concert which promises, from the programme, to be no. 1 in ever respect, as well as bestowing on Prof. Wood a well-deserved benefit for his gratuitous professional services in dozens of instances.

TEN DOZENS MARKET.—A colored woman weighing about 275 lbs. was arrested and locked up in the calabos yesterday for assaulting and pulling a quantity of wool out of the head of another female slave. Dinah had nothing to say in excuse for this had content except that she was "cherry drunk," which was doubtless true. After being imprisoned several hours and sobered off, she was dismissed by Jacob Hassel, the jailor, with the advice not to go wool gathering in that style any more, which Dinah promised to do.

ARREST FOR LARCENY.—Officer Pennington yesterday arrested a person named Jeffrey Cullen, on suspicion of having stolen some silver spoons, knives, forks, &c., from Col. Belote, a proprietor of the International Hotel. He was locked up, and will be examined at 9 o'clock this morning, before Judge Gibbs.

THE MINNESOTA RIVER TRADE.—Our steamboatmen are preparing for a lively campaign on the Minnesota next season. The St. Peter Steamboat says that the castings for a light draught steamboat to run on that river, are now being got out at the foundry in that place.
